LIST
OF THE SPECIMENS OF
BRITISH ANIMALS
IN
THE COLLECTION
OF THE
BRITISH MUSEUM.

PART XVII.
NOMENCLATOR OF ANOPLURA, EUPLEX-
OPTERA AND ORTHOPTERA.

LONDON:
PRINTED BY ORDER OF THE TRUSTEES.
1855.

INTRODUCTION.

THE principal object of the present Nomenclator has been to give a list of the various Insects of the Orders ANOPLURA, EUPLEXOPTERA and ORTHOPTERA that have been recorded as found in the British Islands, with their principal Synonyms.

It is intended for the following purposes:—

As a Complete List of the species recorded as found in the British Islands.

As Labels for the Cabinet, for which purpose it has been printed in a peculiar type and only on one side of the paper.

The Collection contains almost every species in the list, and it consists of the type specimens described chiefly in the works of Messrs. DENNY and STEPHENS.

The Nomenclator has been prepared by Mr. ADAM WHITE, chiefly from Mr. DENNY's work on the British Anopla, and Dr. FISCHER's work on the European Orthoptera.

JOHN EDWARD GRAY.

5th Nov. 1855.
